

“KOI HEALTH FOR PROFESSIONALS”

KOI SEMINAR & WET LAB

August 27TH & 28TH

Presented By: **Dr. Erik Johnson** DVM, Assisted by **Dr. Tim Miller-Morgan** DVM

Location: Rural Dell School, Molalla, Oregon

Sponsored by *Pacific Water Gardens*

This seminar is a must for Koi Health Professionals including Veterinarians, Koi Retailers, Contractors, and Koi Hobbyists. You will learn the latest information from these experts including Koi health and nutrition, diagnosing problems and prescribing treatments. Learn about buying, handling and tank health. In the *WET LAB* you will learn how to biopsy fish and identify parasites under a microscope, administer anesthesia and how to properly inject antibiotics.

Dr. Johnson is one of the most well-known fish veterinarians in the United States. While he does work on all animals, his specialty is koi and goldfish. He is the author of “Koi Health & Diseases” and hosts www.koivet.com.

Dr. Miller-Morgan is the extension veterinarian for the Hatfield Marine Science Center in Newport, Oregon. His primary focus is to help wholesalers, retailers and hobbyists succeed in rearing, husbandry and health care of ornamental aquatic animals in aquarium or pond environments.
